REBELS LOSE GROUND AFTER MADRID FIGHT

**Socialists Offer Transportation
Out of City as Food Shortage
Increases—Cold Rain Pre-
vents New Aerial Raid—Re-
ports of Coast Battle Heard.**

Madrid, Nov. 21. (AP)—Madrid's gunners rolled batteries up to University City Saturday afternoon and began a heavy, short-range bombardment of the positions still held by Fascist invaders.

They announced the recapture of the National Institute of Biology in the northeastern Madrid section and said withdrawal of their forces from Casa De Campo Park, across the Manzanares River from Madrid on the west, had strengthened the University City zone.

Reports reached Madrid of the sinking of a Spanish merchantman off Palamos, on the Eastern Spanish coast, by 40 Fascist shells from the insurgent cruiser Canarias. (The reports were strikingly similar to those heard at Franco-Spanish border points four days ago and re-broadcast by insurgent radio stations last night.)

A day of heavy, freezing rain, gave the grateful capital respite from aerial bombardment.

Pressed by increasing food shortage, the Government offered free transportation to the Eastern Levante regions of Spain for women, children and old persons of both sexes.

The intense cold increased the hardships of the homeless.

TEMPORARY BRIDGE OVER PEASE CHANNEL OPENED

A bridge about 75 feet long has been constructed over the channel of Pease River two miles north of Vernon by Wilbarger County in making traffic across the river bed possible.

Signs on each side of the river warn motorists that the crossing is operated on "cross at your own risk" basis. The State Highway Department is not participating in the project and Highway 23 traffic north of Vernon is detoured across the Highway 5 Pease River bridge. An all-gravel road connects the Highway 5 bridge and Highway 23.

Oran Speer, contractor of Alvord, is ready to begin construction on a new \$181,000 bridge over Pease River on Highway 23 as soon as work orders are received from the State Highway Department. The old bridge was wrecked by the Highwater in September.

COURT RECESSES HEARING ON GREEN ESTATE CASE

New York, Nov. 21. (AP)—Court counsel and principals took a recess Saturday in the hearing involving disposition of the late Colonel E. H. R. Green's \$80,000,000 estate, including fine jewelry he bought from wealthy persons who wished to avoid patronizing pawn shops in the depression.

These treasures with many rare stamps and coins, were found after the Colonel's death in small filing and packing cases with only a lock or two as safety devices to prevent their theft.

After hearing testimony for three days, Surrogate Harry E. Owen ordered a recess Friday to Dec. 2, and debated with lawyers on new maneuvers that might bring five States into the case and settle the point as to the Colonel's legal residence.

BURGLARS GET TIRES IN RAID AT SERVICE STATION

Burglars Friday night entered a filling station operated at 2023 Wilbarger Street by Bob Hoffman, taking four automobile tires. Entrance was gained through a window in the rear of the building, according to Wilbarger County officers who investigated the case.

ROAD BOARD TO HEAR PLEAS OF DELEGATIONS

Austin, Nov. 21. (AP)—Approximately 30 delegations will make requests for highway improvements at a hearing before the Highway Commission Nov. 23.

Counties to be represented with the nature of improvements, included: Upshur and Smith—Proposed designation from Gilmer to Tyler by way of Big Sandy and Winona.

Hutchinson, Gray, Carson and Moore—Construction of highway 209 from Pampa to Borger and designation Stinnett to Dumas.

COURT HOLDS MINIMUM WAGE LAW CONSTITUTIONAL

Columbus, O., Nov. 21. (AP)—A three-judge Federal court held Ohio's minimum wage law, affecting 42,000 women and minors, constitutional Friday.

The court said that the Ohio law was different from those of New York and the District of Columbia upon which the U. S. Supreme Court ruled adversely recently.

The Sixth U. S. Circuit Court of Appeals decision held the Ohio law was based on "the value of reasonable services."

GRAVITY TEST MADE IN CITY BY FEDERAL CREW

A survey to determine the exact intensity of the force of gravity in Vernon was being completed Saturday by technicians of the U. S. Coast and Geodetic Survey, working under the Department of Commerce.

A pendulum swinging in a vacuum over a six hour period and synchronized with time beats from the Naval Observatory in Washington, D. C., gives the answer in determining the force of gravity.

The tests were made Friday by a crew including Lieutenant Carl L. Aslakson, Observer B. R. World and Ensign Charles A. Schoene. The crew arrived Thursday from Ardmore, Okla., where similar work was conducted and will leave Sunday for Farwell to continue their work. Vernon is the only gravity control point in North Central Texas. Ardmore and Crosbytown are the nearest points where other control points exist, Lieutenant Aslakson said.

A concrete marker has been established at the point where the tests were conducted at the Restwell Tourist Park at 619 Wilbarger Street. This concrete marker will be used by geologists for oil or mining companies in this section in determining structures of the Earth's crust.

The highly technical and costly equipment used in making the survey is transported in trailers by the crew. The pendulum is housed in a tent during the tests. The pendulum swings in vacuum to avoid friction or any other disturbance. Each beat of the pendulum is electrically recorded on a chart by use of a photo-electric eye and a light arrangement.

Time beats received from the Washington radio station are synchronized on the chart at the same time by radio equipment. Time for the pendulum beat is figured as low as a millionth of a second and the scale of the pendulum beats and time beats on the chart gives the value of the gravity force. The speed of the pendulum gives the answer in the test, but success of the survey depends on the time signals, it was explained.

The pendulum swing gives the exact shape of the Earth's surface and aids astronomers and other scientists in making accurate calculations. It is believed that the tests will enable observers to more accurately forecast earthquakes, through determination of stress on the Earth's crust.

WARDEN FIRED BY MARLAND

Oklahoma City, Nov. 21. (AP)—Governor Marland removed Roy W. Kenny as warden of McAlester penitentiary Friday night and appointed Jess Dunn, veteran deputy, to succeed him.

Marland directed that Dunn's commission as warden be taken to the penitentiary so Dunn could "let those fellows know right away who is boss down there now."

He gave no reason for Kenny's dismissal. Earlier, however, he instructed Chairman Lea Nichols of the board of affairs to go to the prison and ask Kenny to resign if he felt it "for the good of the service."

SOUTHERN MEDICAL GROUP HAILS BRAIN OPERATION

Baltimore, Nov. 21. (AP)—A new operation which removes about 25 per cent of the tissue of the frontal lobe of the brain and apparently results in definite improvement in many mental conditions was hailed Friday as a "mile-stone in medicine" by physicians attending the annual meeting of the Southern Medical Association.

In contrast with the conservative claims of the two surgeons who reported the operation, Dr. Walter Freeman and Dr. James W. Watts of George Washington University, Washington, D. C., other medical men declared that it marked a turning point of procedure in treating mental cases.

Dr. S. Spafford Ackerly of Louisville, Ky., termed the report a "startling paper" and declared that it "will go down in medical history as another shining example of the therapeutic courage."

GRADUATE WORK CHANGE ATTACKED BY TEACHER

Austin, Nov. 20. (AP)—Dr. Sam Whitley, president of the East Texas Teachers College at Commerce, Friday defended before the State Board of Education graduate work in his school.

The board has been investigating the desirability of discontinuing graduate courses at state colleges other than the University of Texas and Texas A. & M.

Dr. Whitley said he believed graduate work at the other colleges helped the graduate schools at the University and A. & M.

STATE PACTS IN INDUSTRY ARE STUDIED

**U. S. C. C. Urges Business Men

Industrial Regulation—Would
Open Way for Liberal Court
View of Legislation.**

Washington, Nov. 21. (AP)—The Chamber of Commerce of the United States urged business men Saturday to give "most careful attention" to State compacts as a means of industrial regulation.

Chamber directors approved a committee report asserting such agreements among States having similar interests would provide "respect for the constitutional reservation to the states of all powers not expressly granted to the Federal Government."

This, it was said, would enable courts reviewing the agreements to "take a more liberal view than in construing legislation purporting to be based upon limited Federal powers."

As possible subjects for compacts, the committee mentioned labor legislation, electric utility regulation, milk production, corporate charters and natural resources, including bituminous coal and its competitive fuels and timber.

SOUTH VERNON MAN INJURED

**ROSCOE E. PEARCY HURT
IN TRACTOR ACCIDENT
ON OIL LEASE**

Roscoe E. Pearcy, 20, son of Mr. and Mrs. R. R. Pearcy of South Vernon, was in a serious condition Saturday morning in a Vernon hospital following an accident on the Lawson-Leavell lease. He received a fractured skull, concussion of the brain, and a gash over one eye when a tractor he was cranking backfired.

He was struck in the head by a loose chain long and fell, striking his head against the tractor wheel.

EIGHT GERMAN SAILORS LOST IN U-BOAT TRAGEDY

Luebeck, Germany, Nov. 21. (AP)—The fate of eight German sailors, carried to the bottom of Luebeck bay in the damaged U-boat No. 18, was sealed beneath the waters of a Baltic inlet Saturday.

The submarine collided with an unidentified vessel during torpedo practice Friday. Twelve of its crew escaped; eight others went down with the undersea craft.

Authorities abandoned hope for the eight although they did not order a halt to efforts to raise the U-boat.

WRITERS SET SUNDAY FOR MRS. JOSEPHINE MORRIS

Funeral services for Mrs. Josephine Morris, 61, who died Thursday at her residence in Midway community, will be held Sunday at 2:30 p. m. at the First Methodist church, Hammons, Okla. The time for the services has not been set. Mrs. Morris, a resident of Wilbarger County for the past 12 years, had formerly resided at Hammons. She was a native of Mason County.

She is survived by her husband, three daughters, and three sons.

ARMY AND NAVY SHIPS MAY TAKE FOOD TO HAWAII

Washington, Nov. 21. (AP)—A request for government transport of food to Hawaii, cut off from mainland supplies by the maritime strike, awaited word from President Roosevelt Saturday.

The appeal of Governor Poindexter, who said the Island Territory imports 80 per cent of its food and faces rising prices as supplies dwindle, was referred by the Interior Department to War and Navy chiefs.

First, however, Interior Department officials learned from Secretary Perkins that the Labor Department, trying to settle the strike, had no objections to use of the Army or Navy ships.

NIECE OF VERNON MEN DIES AT WICHITA FALLS

Word was received here Saturday of the death of Miss Elsie Pearl Garrett, 21, a niece of J. V. and E. B. Owen of Vernon, at the residence of her parents, Mr. and Mrs. George Garrett, in Wichita Falls Friday afternoon.

Funeral services were conducted Saturday afternoon from the First Baptist Church in Wichita Falls. Burial was in Markle Cemetery. Vernon residents attending the funeral were Mr. and Mrs. J. V. Owen, Mr. and Mrs. E. B. Owen, Mr. and Mrs. L. A. Wilson and daughter, Lena Lee, Mrs. H. H. Hargrove, and Mrs. Roscoe Rainwater.

VICE PRESIDENT, WIFE ARE GIVEN LAW DEGREE AT WACO IN CEREMONY AT BAYLOR U.

Waco, Nov. 21. (A-P)—Vice President John Nance Garner, Saturday had broken another of his long-established habits to become with his wife a candidate for the degree of LL. D. from Baylor University.

Because the ceremonies were proposed by Texas' oldest institution of higher learning, founded at Independence in pioneer days and chartered under the Republic of Texas as a part of the State's Centennial celebration, Garner told school officials he would accept the honorary degree despite his previous policy heretofore of declining such invitations.

A host of outstanding men of affairs from Texas and neighboring states had assembled with Texas' leading educators to take part in the ceremonies. Garner, more at home perhaps in rough hunting or fishing togs, and Mrs. Garner, will be invested with the academic robes and emblems at the hands of President Pat. M. Neff, former Governor of Texas.

The Centennial aspect of the occasion will be emphasized by the presence of Cullen F. Thomas, commissioner General of the United States Centennial Commission, and Fred F. Florence, Dallas, banker and president of the Centennial Exposition.

Rep. Fritz G. Lanham of Fort Worth will deliver the principal address. Other members of the Texas Congressional delegation on hand for the ceremonies honoring the Texan who started his career as a frontier lawyer and rose to the second highest post in the nation include Senator Tom Connally and Reps. Hatton W. Summers of Dallas, Nat Patton of Crockett and W. D. McFarlane of Graham.

President H. V. Benedict of the University of Texas heads the list of educators. President C. C. Seelman of Southern Methodist University will offer the invocation and President E. M. Waits of Texas Christian University will pronounce the benediction.

KENTUCKY DEATH SUSPECT DENIED BOND AT HEARING

New Castle, Ky., Nov. 21.—Brig-Gen. Harry H. Denhardt was ordered held for the grand jury Friday after a preliminary hearing before Judge A. Sid Morgan on charges of first degree murder in connection with the death of his fiancée, Mrs. Verna Garr Taylor.

Explaining that they feared violence, peace officers were alert when Denhardt came to court. Denhardt was not granted bail previous to Friday, he had been at liberty under \$25,000 bond.

Mrs. Taylor was found shot to death on Nov. 6. The bullet which was the cause of death had allegedly been fired from Denhardt's pistol.

EMPLOYERS HERE RETURN SECURITY ACT BLANKS

Approximately 75 per cent of the employers' applications for identification numbers, distributed in Vernon Nov. 16 in connection with the Social Security program, have been returned to the post office, it was announced Saturday morning by Postmaster John B. Hardin.

"Individuals or firms desiring to return the blanks after Saturday should mail them direct to the Social Security Board at Baltimore, Md.," stated Mr. Hardin.

More than 500 of the blanks were distributed in Vernon.

SALT WATER HAZARD NEW WELL IN TILLMAN

Frederick, Okla., Nov. 21.—Work was begun Friday night running casing to cement off salt water which had flooded into the No. 1 Hatter wildcat oil well, five miles southeast of Frederick, which blew in early Friday morning.

The well, the first in Tillman County which can be closed outside of strictly shallow production, came in at 3,314 feet, blowing oil over the crown block. Officials of the Indian Territory Illuminating Oil Company unofficially predicted Friday that the well's production would be between 2,700 and 5,000 barrels of oil daily.

Owners of royalty near the well were refusing Friday to sell at any price.

LEWIS FACTION BEGINS FIGHT AT CONVENTION

**Industrial Unionists Seek Sup-
port in Meeting Steamroller
Action of A. F. L. or Boy-
cott Voted**

Nov. 21. (AP)—A mill-union vote in voting strength had to be heard on the floor of the American Federation of Labor convention, whipped up opposition Saturday to steamroller action on the resolutions proposing peace with industrial unionists.

Gathering, their temporary chairman announced, in the name of "those who love Democracy," some hundred delegates elected a board of strategy, and went forth button-holding others to gain converts to their cause.

Smearing under defeat in the first major test of strength at the convention, the industrial unionists forgot any technical differences for a united front after a boycott had been voted by the convention on men's clothing made by the Amalgamated Clothing Workers, affiliated with the Lewis committee. Speakers at the council of war denounced the boycott as "undemocratic" and serving to widen the breach in labor's ranks caused by the A. F. of L. executive council's suspension of the ten Committee for Industrial Organization unions. The convention is in recess until Monday.

CLOTHING WORKERS BRAND BOYCOTT AS IMPOTENT

New York, Nov. 21. (AP)—A statement issued Saturday from general offices of the Amalgamated Clothing Workers of America called the American Federation of Labor's intended boycott of clothing bearing the Amalgamated's official union label "an act of rash impotency."

MASSACHUSETTS WOMAN LOSES \$125,000 IN GEMS

Southboro, Mass., Nov. 21. (AP)—State police combed this section Saturday for four "chummy" holdup men who robbed Mrs. William Kennedy, wife of a wealthy Boston merchant, of \$125,000 in gems.

Wearing masks and armed, the four entered the palatial Kennedy home last evening.

Ignoring the attractive Mrs. Kennedy's command "Come on and get out of here and go home," the men courteously ordered her and her maid into the library and said they wanted her jewelry.

"I tried to talk them out of it," Mrs. Kennedy said. "I offered them cigarettes and did all I could think of but they meant business."

Directed to a floor safe containing jewelry, the men dialed the combination at Mrs. Kennedy's direction. They disregarded a valuable necklace she was wearing.

After each man had shaken Mrs. Kennedy's hand and complimented her on her coolness, they bound her and Miss Emma Green, the maid, to chairs and left in a car.

"We got quite chummy," Mrs. Kennedy said afterward. "I told the men 'I'm sorry you boys have to do a thing like this.'"

They replied, she said, "so are we, but what can we do about it?"

STATE COLLEGES AGREE TO LIMIT ADVANCED WORK

Austin, Nov. 21. (AP)—Ten State-supported colleges have agreed voluntarily to limit their graduate courses to work on master's degrees, leaving higher graduate work to the University of Texas and Texas A. & M. College.

Presidents of the institutions Friday submitted the agreement to the State Board of Education which recently favored the concentration of graduate activity at the University and A. & M. College.

The Board next month will make definite recommendations to the Legislature concerning the scope of graduate work at other colleges. The Board's asserted purpose is to develop a graduate center "second to none" in the country.

Signatories to the agreement were all State teachers' colleges, Texas Technological College, Texas College of Arts and Industries and Texas College for Women.

MATANUSKA VALLEY HAS FIRST DEATH INVESTIGATION

Palmer, Alaska, Nov. 21. (AP)—Renewed Federal investigation into the fatal shooting of a Matanuska Valley bride stirred the Federal land settlement colony today.

It was the first violent death and inquiry of the kind since the colony of Midwestern farmers was established a year and a half ago. Assistant U. S. District Attorney Warren A. Taylor touched off speculation here with an announcement in Anchorage that circumstances of Mrs. Zeldia King Pilkenton's death in her home here Nov. 11 "called for further investigation," despite a coroner's jury's verdict of suicide.

Movie Romance

INCREASE IN REVENUE FOR PERIOD NOTED

Washington, Nov. 21. (AP)—Talk of a possible balanced budget in 1937-1938 was followed Saturday by Internal Revenue reports that the Government's income surged upward \$170,000,000 in the first four months of the present fiscal year.

With business gaining rapidly, receipts of the Treasury from July 1 to Oct. 31 were \$1,307,682,000, compared with \$1,137,682,000 in corresponding months last year.

Encouraged by these figures Treasury experts said new estimates "obviously" justified a prediction of Chairman Harrison, Democrat, Mississippi, of the Senate finance committee that the budget will be balanced in the fiscal year beginning next July 1.

An increased flow of money into the Government came through 53 of the 70 tax channels. Among them were individual income taxes (up \$35,415,000), corporate income taxes (up \$44,838,000), liquor taxes (up \$37,130,000), and levies on tobacco, gasoline, automobiles, mechanical refrigerators and sporting goods.

GAIN IN FARM TRADE WITH CANADA LISTED

Washington, Nov. 21. (AP)—Increases of agricultural trade between the United States and Canada were reported Saturday by the agriculture Department.

Value of farm products imported from Canada was placed at \$66,320,000 for the first nine months of 1936, a gain of \$2,153,000 over the same period in 1935.

Imports on which the United States reduced duties under a reciprocal trade act were valued at \$13,740,000, a gain of \$7,019,000.

There was an increase of \$6,104,000 in the value of farm products sold by this country to Canada, of which \$3,656,000 represented items on which Canada reduced duties.

INDUSTRIAL ACTIVITY REACHES LEVEL OF 1929

New York, Nov. 21. (AP)—Industrial activity has climbed back to the 1929 level, moving out of the 1930 range in the latest week.

The Associated Press index rose to 98.0, from 97.0 a week ago, and 83.4 in the same period last year. Gains were general, only cotton manufacturing activities dipped from the previous rate. Freight car loadings advanced contra-seasonally, pushing the index to a new top for the year.

Production of 1937 model automobiles stepped ahead smartly.

Steel mill operations inched higher and electric power output nudged up to within a fraction of its recent historic peak.

ANNULMENT OF WORKING CONTRACT ASKED BY SHIPPERS

New York, Nov. 21. (AP)—A suit for annulment of an existing working contract between the International Seamen's Union and steamship operators, together with expected action by American Federation of Labor officials on their plea for consideration of issues in their walkout, engaged attention of striking Atlantic and Gulf coast seamen Friday.

The strike strategy committee asked the State Supreme Court to void the working agreement executed by I. S. U. officers with steamship operators, charging it was obtained through "fraud, collusion and corruption."

TEXAS BOY KILLED IN FALL FROM FREIGHT CAR

Phoenix, Ariz., Nov. 20. (AP)—Newton Cobb, 20, believed to be the son of N. B. Cobb, Merket County, Texas, judge, died in a hospital here Friday from injuries suffered when he fell from a train between Phoenix and Yuma.

Glenn Lewellen, a friend, said he saw Cobb fall from the top of a box car. The train was stopped and he was placed on a passenger train and brought here.

The two had been working in the lettuce sheds at Salinas, Calif., and were en route to Tolleson, Ariz.

HUNSMEN HAVE TROUBLE GETTING BOARS IN HILLS

Tullahoma, Tenn., Nov. 21. (AP)—Mountaineers who have been frankly amused by the city folks' scant success in bagging wild boars, joined Saturday in an effort to drive the fierce beasts within range of the outlanders' guns.

A disappointed but determined band of 50 well equipped huntsmen took stations in strategically placed blinds in the Unaka Hills while 30 natives sought to drive the quarry into gun range.

Further staking for the pride of the visiting marksmen was felt when forest rangers admitted they had been unable to classify any of the hogs killed in the first two days of the hunt as being definitely of the Prussian wild boar strain.

To Defend Record

Stephenville, Nov. 20. (AP)—Coach W. J. Wisdom is training his John Tarleton College basketball team to defend a record of 60 wins in a row the past three years. Only one letter man from last year's undefeated team, Guard Jude Smith, of Lamesa, will play this season.

FOARD XMAS PLANS READY

COMMITTEES SELECTED TO ARRANGE OPENING EVENT ON DEC. 11

Crowell, Nov. 21.—Christmas plans were launched and committees appointed at the November meeting of the Foard County Farmers and Business Men's Association held at the Crowell Methodist Church.

Attending members voted in favor of the county's Christmas opening to be held Friday night, Dec. 11. Committees appointed by Amos W. Lilly, president of the "Horse Traders," were: Program—J. A. Ward, D. R. Magee, I. T. Graves, A. Y. Beverly, and Mrs. Henry Borchardt; Finance—Leo Spencer, T. P. Reeder, and Claude Callaway; Advertising—George Self and T. B. Klepper; Street lights—Jack Seale, Pete Bell, and W. H. Meyer; Window decorations—Leon Speers and Ernest King; Street Christmas trees—the County Federation of Clubs.

A nominating committee of M. S. Henry, W. F. Kirkpatrick, L. A. Andrews, and George Self, was appointed to select candidates for the organization's offices for next year. The committee was instructed to select two persons for each office and present them for action Monday night, Dec. 14.

A. Y. Beverly, George Self, and Dwight Moody were placed on the program committee for next meeting. Eddy Greening and Munson Welch were selected for the ticket committee.

Position of Treasury.

Washington, Nov. 21.—The position of the Treasury Nov. 19: Receipts, \$18,000,000; expenditures, \$18,197,556.10; balance, \$1,800,000.45; customs receipts for the month, \$22,867,167.17. Receipts for the fiscal year (since July 1) \$1,569,254,076.44; expenditures, \$2,720,000,729.07, including \$1,080,000,132.55 of emergency expenditures; excess of expenditures \$1,150,746,652.63; gross debt \$32,812,644,554.06, a decrease of \$1,064,599.50 under the previous day; gold assets \$11,129,957,417.13.

TWO DIE IN CAR CRASHES

GAS FIRE FATAL FOR MAN NEAR GRANDFIELD; BOY KILLED IN WICHITA

Grandfield, Okla., Nov. 21. (P)—Within a few minutes after he had escaped uninjured in an automobile wreck Dennis Hutson was burned to death in a gasoline explosion near here early Saturday morning.

Hutson's car overturned on a curve near here and he escaped uninjured. While en route to Grandfield with a passerby, however, he remembered leaving his hat at the scene of the wreck and returned to get it.

While searching for the hat he struck a match and gasoline which had saturated the ground exploded, enveloping him in flames and burning him beyond recognition before the fire could be extinguished.

BOY, 17, DIES AFTER CRASH WITH AUTO ON HIGHWAY

Wichita Falls, Nov. 21. (P)—An automobile collision near here early Saturday morning took the life of 17-year-old William Walton Christian, the third person to die this week in motor accidents in Wichita County.

The car in which the youth was riding collided with the machine of a Negro. It took place about two miles north of Wichita Falls on the Iowa Park Highway. The youth died in a hospital two hours after the crash.

NOCONA MAN'S BODY FOUND ON M-K-T TRACKS

Nocona, Nov. 21. (P)—The mangled body of Noel Bagwell, 25, of six miles north of Nocona, was found on the Missouri Kansas Texas railroad tracks in the west edge of Nocona early Saturday. Justice of the Peace D. M. Painter held that the death was accidental.

On Cruise to Buenos Aires

The U. S. cruiser Indianapolis, above, won the honor of carrying President Roosevelt from Charleston, S. C. to Buenos Aires, Argentina, for the Dec. 1 opening ceremonies of the Pan-American peace conference. The Indianapolis, in charge of Capt. Henry K. Hewitt, upper right, was scheduled for two stops en route, one at Trinidad for fuel, another at Rio de Janeiro, Brazil, where a reception was planned for the President. At left, above, Roosevelt shows his "good neighbor" smile, expressing the feeling expected to prevail at the parley of 21 American republics.

COTTON

New York, Nov. 21. (P)—Cotton futures opened barely steady, 3 lower to 2 higher on December liquidation and exchanging to later months, December 11.72; January 11.61; March 11.62; May 11.60; July 11.54; October 11.12.

Trading was moderately active but initial price changes were narrow and irregular. However, the trade was a good buyer of December, and foreign orders from the continent and Liverpool were mostly on the buying side. Offerings later tapered off and prices rallied 3 to 5 points from the early lows. March recovered from 11.62 to 11.65 and then sold at 11.64 while prices generally were not unchanged to 6 points higher.

The census bureau report showing 10,766,378 running bales had been gained prior to Nov. 14 was about in line with recent private forecasts and had no apparent influence on the market. Some cotton men regarded the figures as confirming the November bureau estimate for a crop of 12,400,000 bales of 500 pounds gross weight.

Liverpool was somewhat irregular with near months relatively easy and forward positions steadier. Dull conditions were reported in that market with liquidation of nearby and Bombay selling meeting trade calling.

Futures closed steady, 4-15 higher.

New Orleans.

New Orleans, Nov. 21. (P)—The Government's latest report on cotton ginned so far this season appeared at the start of trading this morning, but had little immediate effect on prices.

The December position opened 3 points lower at 11.70, then recovered to 11.71, while both March and May, after an early dip, recovered to their previous closing levels before the end of the first half hour.

Placing the cotton ginned to Nov. 14 at 10,766,378 bales, the Government report indicated that only 1,700,000 bales more would be needed to achieve the total crop estimated earlier this month at 12,400,000 bales.

Last season approximately 2,200,000 bales was ginned between Nov. 14 and the season's end, but most crop commentators agreed that the earlier season this year would prevent a similar total.

While many in the trade reportedly had been awaiting the ginnings report before putting out new lines, little increase in activity was noted this morning.

There was a little hedging, but

WITH OUR FARMER FRIENDS

The farm situation in America is undergoing a mighty change. Our farms produce more food than our people can eat and other nations are buying less of us.

Finding new industrial uses for our farm products is one answer to the problem. Controlled production, diversification, and soil conservation, give other answers. A new future is in the making for the farmer.

This bank is taking an active interest in agricultural progress. We are working in every possible way to promote greater prosperity for the farmers of this section. Let us cooperate with you.

MURDER CHARGE FILED IN DEATH OF DALLAS WOMAN

Dallas, Nov. 21. (P)—Officers filed murder charges Saturday against C. C. Lyle, 31, accusing him of shooting to death Mrs. Alice Carlisle in a south side drug store Friday.

Jim Kelley, proprietor of the store in which Mrs. Carlisle worked, told police Lyle came into the establishment and motioned for the woman to accompany him behind a prescription partition.

The proprietor said Mrs. Carlisle accompanied Lyle apparently unwillingly, and in a moment, came running forth screaming. He said the man followed her, shooting. A bullet cut the woman's jugular vein.

G. V. Roach, 60, a cripple, said he attacked Lyle after the shooting and Lyle fired at him, the bullet tearing his coat. Roach said he beat Lyle with his cane and, with the aid of other bystanders, disarmed him.

CRUDE DEMAND GAIN NOTED

DAILY AVERAGE OUTPUT INCREASE OF 60,000 BARRELS SUGGESTED

Washington, Nov. 21. (AP)—The Bureau of Mines Saturday recommended a daily average crude oil production of 2,830,300 barrels for December, 60,000 barrels higher than the November total.

At the same time, the Bureau said it would not be able to make a long-range forecast of crude oil demand for winter months as requested by the Interstate Compact Commission through Chairman E. O. Thompson, who also is chairman of the Texas Railroad Commission.

"Insufficient data, unpredictable weather conditions and divergence of opinion as to the probable trend of refinery operations do not warrant a detailed forecast for more than one month in advance," the Bureau said.

"However, a review of consumption trends indicates a probable increase of about 9 per cent in the total demand for motor fuel and an average monthly increase of about 4-600,000 barrels in the total demand for heating and fuel oils for the first quarter of 1937 with the same period in 1936."

STORIES IN STAMPS

By I. S. Klein

LONE KING OF THE MOUNTAINS

HEAVILY guarded, and practically without companions in his great, modern palace, sits King Zog I of Albania. For few with whom he can converse come to the faraway valley capital of Tirana. Yet King Zog, just past 40, is popular with his million subjects, hardy mountaineers of ancient stock.

This highly educated ruler, born of an old feudal family, won national renown by fighting for the independence of his country. At the age of 19, in 1912, he hurried back from the officers' academy at Constantinople to lead the troops of his native district against the Serbs at Scutari. By the time he was 25, he had become supreme commander of the Albanian army. At 28, he was minister of the interior.

In 1924, Ahmed Bey Zogu, as he was known, fled the country when a revolution broke out. But he came back and smothered the revolt and, in February, 1925, was elected president of the newly formed Albanian republic.

In September, 1928, Albania became a kingdom and Ahmed Bey Zog became King Zog I. His picture appears on several stamps issued from 1925 on.

22 Children Take Part in Central P-T. A. Program

Twenty-two Central school children, many of them in costume, presented an interesting program in observance of National Book Week Friday afternoon at a meeting of the Central School Parent-Teacher Association. Mrs. E. E. Powell had charge of the program, assisted by Miss Carrie May Ball.

Lena Lee Wilson reviewed "Alice in Wonderland" and characters of the book were represented by Maurice Woods, Georgia McNabb, Betty Jean McDonald, Gregory Zelios, and Bobby Rake, all in costumes. Other children taking part in the program and the books they reviewed are as follows: "A Boy's Story of Lindbergh," Albert Dean Mason; "Betty and Bob Around the World," Joy Louise Crooks; "American Twins in the Revolution," Jimmy Murrell and Frances Ann Smith; "The Spanish Twins," Melva Jean McAlmont; "Smoky, the Cow Horse," Earl Bristo, Jr.

"Books" and "Fairy Tales" were the names of two vocal numbers given by a girls' quartet composed of Lena Lee Wilson, Maurice Wood, Mary Katherine Dooley, and Joy Louise Crooks, and a number of cowboy songs were given by a boys' sextet. Personnel of the sextet is as follows: Maurice Bailey, Dale Parker, Arthur Lee Coleman, Guy Hargrove, Billy Carl Yeary, and James Brock.

Rev. G. T. Reeves conducted the devotional for the afternoon on "Spiritual Growth in the Home." His text was taken from Ephesians 6. Another feature of the program was a talk by Mrs. E. E. Powell, who spoke of the cooperation of the Parent-Teacher Association and the board of education in purchasing books for the school library.

The president, Mrs. C. L. Hogsett had charge of the business session at which tests on a tuberculosis pamphlet were taken by the members. The treasurer reported that \$53.12 was cleared at the Halloween carnival sponsored by the unit. Following the close of the meeting the group inspected a display of posters made by the low fifth grade and a miniature Spanish village made by children of the high fourth grade under the direction of Miss Elizabeth Lane.

Those present at the meeting were Rev. G. T. Reeves, Principal E. H. James, A. K. Hamblen, Misses Willie Mae Murdock, Naomi Lincoxon, Gerry Walker, Carrie May Ball, Elizabeth Lane, and Mesdames H. E. Electoral vs. Popular Vote.

Following the recent presidential election we had the usual revival of interest in the possibility of substituting the popular vote for the electoral vote as a means of choosing a President and Vice President. President Roosevelt's lead over Governor Landon in the popular vote was in the ratio of three to two, while the margin in the electoral vote was in the ratio of 65 to one.

Advocates of a change argue that this gives a misleading picture of the political situation. They also point out the possibility that a candidate might receive a majority of the popular votes and yet fail to receive a majority of the electoral votes, and the popular will as reflected in the votes polled would thus be defeated. While this is possible, it is extremely remote and even in rare cases where it would happen, the argument loses much of its effect because in some States, notably in the South, where nomination of the dominant party are equivalent to election, there is a comparatively small interest in the general election. Hence the conclusion that the popular vote, when pooled, does not necessarily indicate the exact preference of the people.

But the merit of the electoral system is based on an entirely different consideration. It is founded upon the idea that the States should retain control over the franchise, subject only to general limitations expressed in the fourteenth and nineteenth amendments. Another very important factor is that the electoral system gives the States of smaller population a greater voice in the election of the President than they would have if the choice were made by popular vote. Each State has electoral votes equal to the number of Congressmen and Senators. Since each State has two Senators, regardless of population, abandonment of the electoral system would diminish the voting strength of thinly populated States and increase the strength of the more populous States.

It is apparent, therefore, that two results would follow an abandonment of the present system of choosing the President and Vice President. The Federal Government would necessarily have to exercise control over National elections. Is the South, with its large Negro population willing to surrender a traditional policy of virtually limiting the franchise to whites? The other result would be to subtract voting strength from such States as New Mexico, Wyoming, Nevada, Utah, Idaho, and other less populous States and add it to populous States such as New York, Pennsylvania, Ohio, Michigan, and Illinois. States of average population would about hold their own, while such States as Texas and California would probably stand to gain slightly. The present system has many advantages over the popular vote method and certainly no good result could be expected to follow the adoption of the popular vote system of choosing a President and Vice President.

SECURITY ACT IS REVIEWED

FEDERAL LAW PASSED TO OBTAIN UNIFORM TAX IN COUNTRY

Washington, Nov. 21. (AP)—Aside from instituting Federal pensions, the Social Security Act was designed primarily as a level for the enactment of unemployment insurance by 47 states.

Wisconsin alone had such legislation before 1935. Year after year it had been argued successfully in some states that unemployment taxes would be an unfair handicap on home industry because other states had none.

Congress imposed a uniform tax on businesses that employ 8 or more persons as many as 20 days a year, each of those days being in a different calendar week. The rates: 1 per cent of wages paid this year, due on Jan. 31; 2 per cent of 1937 wages, 3 per cent of wages in 1938 and thereafter.

But—and here is where the leverage comes in—the employers in states operating unemployment insurance laws approved by the Security Board can deduct taxes paid under those laws from the Federal tax, up to 10 per cent of the amount of the Federal assessment.

In other words, if a department store owner has a \$100,000 payroll and his tax for the State fund is 0.7 per cent (as it is in 11 states for 1936), he must pay \$700 to the State and \$100 to Washington. If the State has no approved law, the entire \$1,000 comes to the Treasury.

Many individuals have been inquiring about the relationship between old age pensions under the Security Act and unemployment insurance. There is none. The taxes are separate and distinct.

Using Mr. Ben and his son-in-law, Brutus Bolt, to illustrate, whether they will be directly benefitted by the unemployment insurance provision depends on whether their State has an insurance system. If it has, each must apply to the State employment office for assistance.

Other basic requirements: No unemployment compensation can be paid until two years after the State taxes first fall due. This was to allow time for the State to build up its fund and time to set up administrative machinery in the State on an efficient basis.

The State must be held in the national treasury. All money withdrawn from the "unemployment trust fund" must be used solely for compensation to those out of work.

(Administrative) expenses are met by the Federal Government. Compensation must not be denied those eligible for benefits for refusal to accept work if the position offered is vacant because of a labor dispute, if the wages or hours of the job are less favorable than those prevailing in the locality, or if the man is required to leave to join a company union or to resign from a union for joining "a bona fide labor organization."

Finally, the State Legislature must be left free to amend or repeal its law.

To qualify for the weekly benefits, Mr. Ben and other unemployed must be able to show a work record over a period of time that differs in the various states.

Once the benefits begin, they go on for a period depending on how long a man was employed. Usually he gets a week of benefit for each four weeks of employment. The amount under practically all the present State laws is half what his wages were, with a \$15 a week maximum.

BUSINESS GROUPS DEMAND END OF STRIKE ON COAST

San Francisco, Nov. 21. (AP)—Business groups here renewed demands Saturday for government intervention to settle the Pacific Coast maritime strike as a new peace proposal withered under employer opposition.

With no break in sight on the 23rd day of the walkout, independent business organizations directed appeals for help to Washington and figured in millions of dollars the strike's cost to West Coast industry.

Waterfront employers said three ships had been added to the number being pulled in coast ports, bringing the total to 216 in the dispute which has thrown more than 37,000 union maritime employees out of work and affected tens of thousands in other industries.

Assistant Labor Secretary Edward P. McGarry sought to attack the crucial hiring hall issue from new angles after shipowners rejected his proposal for "neutral port committee" for settlement of individual controversies.

BRADDOCK'S MANAGER AIDS IN FIGHT PLANS

New York, Nov. 21. (AP)—If Joe Gould, champion Jimmy Braddock's manager, feels Saturday as he did Friday night, the heavyweight situation will have stopped traveling around in circles.

Gould said he would turn over to the State Athletic Commission a check for \$5,000 guaranteeing the champion would go through with an agreement for a title fight with Max Schmeling next June.

If this is done, and the articles of agreement for the Braddock-Schmeling fight are signed, as Gould said, the negotiations for a proposed 12-round no decision fight between the titleholder and Joe Louis in Atlantic City next February should move swiftly.

Disarming Smile. (AP)—Ernest Auth, 35-year-old gasoline station attendant, found profit in a smile. A handkerchief signed "Ernest Auth" leveled a pistol at his head. Auth laughed softly, turned, and walked into the station. He locked the door. The stick-up man, nonplussed, hopped in his car and sped away.

RELATIONS OF JAPS AND NAZIS ON FIRM BASIS

Berlin, Nov. 21. (AP)—Japan and Germany have "much in common" in their governmental ideas, a high Government spokesman acknowledged Saturday.

He denied, however, there is a "hard and fast alliance between the two."

"It is quite conceivable Germany and Japan—opposed as both are to Bolshevism—may in given situations decide to proceed jointly," he added.

"It is also possible if either should become involved in a war with Soviet Russia, the other would exercise at least a benevolent neutrality."

"It is also clear Japan and Germany have much in common in their authoritarian conception of government," Official sources described themselves frankly puzzled and worried by persistent reports from Russia of a German-Japanese pact aimed against Russia.

Stoutly maintaining that "nothing is known here," one official, however, declined to be pinned down to an absolute denial.

FORT WORTH HANDICAP AT DOWNS DRAWS 14 ENTRIES

Arlington Downs, Texas, Nov. 21. (AP)—The renewal of the Fort Worth Handicap Saturday attracted 14 entries, including eight which accepted the issue in the \$15,000 added Waggoner Memorial Handicap a week ago.

The event was for horses of all ages over the mile and a sixteenth course with an added value of \$5,000. Clarence E. Davison's Navan sought his second major victory of the season after galloping to a surprise victory in the Waggoner Memorial.

A. A. Baron's Star Shadow, winner of the Arlington Star Handicap and third in the Waggoner event, was assigned top weight of 114 pounds, Star Shadow was coupled with Mrs. B. B. Ann O'Riley, carrying 110 pounds.

ROOSEVELT GOES FISHING DURING STOP ON VOYAGE

Port-Au-Spain, Trinidad, Nov. 21. (AP)—President Roosevelt, an ardent fisherman, arranged an angling Saturday while the cruiser Indianapolis and Chester, carrying him and his party to South America, took on fuel and supplies.

The cruiser's completed their run from Charleston, S. C., in approximately 66 hours, averaging a little under 25 knots.

The departure for Rio De Janeiro was scheduled for late afternoon. From there Mr. Roosevelt will continue to Buenos Aires to attend the opening of the Inter-American Peace Conference.

CONTINENTAL OIL COMPANY ANNOUNCES 1936 BONUS

The bonus, the total amount of which had not been announced, will be paid Dec. 15 at the same time the firm's regular 25-cent dividend goes to stockholders.

An employee's period of service up to Dec. 1 will rule the amount of bonus he will receive.

WARNING ON EGGS SOLD IN CITY GIVEN BY NEATHERY

Complaints are being received daily that eggs unfit for human consumption are being sold in Vernon stores, according to a statement Saturday by M. G. Neathery, city Sanitary Inspector.

"The law specifically states that food of any description which is unfit for human consumption shall not be offered for sale," stated Mr. Neathery, "and violators will be prosecuted unless such practices are discontinued immediately."

WPA CREWS AT NEW SPAN ON GOOD CREEK ARE POURING CONCRETE

Crowell, Nov. 21. (AP)—Pouring concrete for a bridge over Good Creek on the road from the Crowell-Paducah highway to the Texas Company gasoline plant in the southwest part of Foard County is now under way.

The work on the Works Progress Administration project was begun during the last week of September.

The low-water bridge will be 182 feet long, the center of which will be in the creek bed. Most of the grading has already been completed, the bridge rip-rapped, the approaches cut down, and the two crews of 15 WPA laborers are now employed in pouring concrete.

CHILLICOTHE MERCHANTS PLAN TRADES DAY EVENT

Chillicothe, Nov. 21. (AP)—Wednesday, Nov. 25, will be a big day in Chillicothe. At a designated hour on that day, each merchant in town is to set loose a fowl of some kind, either a turkey or a fat hen, from his place of business, and the lucky one to catch it is the owner. There will be approximately 35 or 40 fowls set loose in the town.

The event is to be held in place of the regular monthly trades day event and a huge crowd is expected each one anticipating a nice fowl for his Thanksgiving dinner.

In the afternoon the Chillicothe Eagles will meet the Archer City Wildcats in a 10-B district conference game here.

It is expected to be a close game, the Eagles being in excellent condition as they have not played for the past two weeks and have been doing splendid work in the past several conference games played, recently winning a 19-0 victory over Iowa Park.

CROP INSURANCE FAVORED BY COTTON CONFERENCE

Paris, Nov. 21. (AP)—The Southwest Cotton conference was on record Saturday in favor of crop insurance, and cooperative marketing and full payment of bankhead certificates.

Resolutions passed Friday also endorsed administration of the farm program by Texas A. & M. College, protection of the cottonseed industry and the government farm program.

Senator Tom Connally deplored the Texas tenancy problem and said the success of agriculture would be assured into home owners.

HALF-ACRE in EDEN

BEGIN HERE TODAY

MARCIA CANFIELD, daughter of wealthy PHILIP CANFIELD, knows that the neighborhood is buzzing with gossip over the sudden disappearance of FRANK KENDRICK, whose engagement to Marcia has been announced. Since his disappearance, a shortage in Kendrick's accounts has been discovered.

Refusing to let others know how deeply she has been hurt, Marcia goes to the dramatic club try-outs and is given the leading part in a new play. Afterward, with others, she stops at a restaurant. There is a holdup and Marcia loses a ring that was her mother's.

From her friend, HELEN WADDELL, Marcia learns that Frank is in Chicago, decides to go there to persuade him to return and face his financial obligations. She takes the first plane.

Marcia learns her trip was in vain, takes a plane to return home. Among the passengers is a stranger who gave her a pencil sketch of herself. His name is BRUCE McDOUGALL.

There is a storm and the plane is forced down. The passengers seek shelter in a farmhouse.

NOW GO ON WITH THE STORY CHAPTER X

When the storm refugees awakened in the farmhouse on the second morning following the unscheduled landing of their plane, they found that government and public utility had combined to bring them back in contact with their world. Snow flurries had at last opened the highway passing the farm; telephone trouble-shooters had repaired the wires. It was possible to send word to anxious relatives, possible to go by car to

the nearest town and so continue to New York by train.

Marcia dispatched two telegrams by way of the telephone, one to her father's office in New York, to be relayed to him in Florida; and one to Helen Waddell, with a request that the news of her safety be given to the Canfield servants and to her friends, and with the additional information for Helen alone that she had not succeeded in her efforts to find Frank Kendrick.

Automobiles then were ordered from the town and the recent refugees departed, leaving the airplane crew with their damaged craft to await orders.

Marcia found herself riding, with three women, who matched the mood of the gray and threatening morning with a chatter of dull, complaining conversation. It would have been more amusing, Marcia reflected, to have the cheerful McDougall as a companion. She glanced back. The car in which he was riding was not in sight.

The women's car reached the town and proceeded directly to the railroad station. There would be a train in 20 minutes.

Marcia did not know that the passengers in the McDougall car were still half an hour away, impatiently watching their driver change a tire by the side of the snow-banked road.

The news that Marcia was safe spread quickly through Bobbs Neck, and the hours of neighborly anxiety came to an end. There followed, as paradoxical as human sympathies, a period of mounting hostility. The gossip was busy, and it became generally accepted, on the basis of no more than Dorothy Osborn's suspicions, that Marcia's sudden and unannounced (and therefore guilty!) journey had had to do, in some as yet unexplained way, with the missing Frank Kendrick.

This condition of the community mind was promoted as a result of the visit of several young matrons to Helen Waddell, as Marcia's close-

est friend, in mid-afternoon while Marcia's train was drawing close to New York. As women, these young wives of men who had lost money through Kendrick were not as willing as their husbands to forgive and forget a financial misfortune at the hands of a friend.

Their spokesman, over the teacups which Helen brought out for her unexpected callers, was Mrs. Charles Horton. By her own proud account, Mrs. Horton had recently wasted the sum of \$1,500 in an ill-advised purchase of furniture, but at the moment her mind was concentrating on an even \$1,000 which her husband had given to Kendrick for investment.

"It's all around town, my dear," said Mrs. Horton, "that Marcia knew where Frank was and flew out to meet him. Do you suppose that's true?"

"Don't you think Marcia should have the opportunity of giving her own answers?" retorted Helen. "It doesn't seem very friendly, I must say. She'll be home this evening. Why should we talk about her in the meantime?"

"Well—except that it would be rather embarrassing to go to her and ask the blunt question. One would like to know the answer in advance, if you understand what I mean."

Marcia arrived in New York soon after 6 o'clock and, telephoning home, reached Bobbs Neck an hour later. She was met by the chauffeur, and went home to dinner, served by a relieved 'Akins.

"So many people have been calling about you, Miss Marcia," he told her. "And this afternoon we had a telegram from your father, saying you were safe, although, of course, we had your message through Miss Waddell earlier. Shall I tell them you cannot be disturbed?"

"Why, no," said Marcia. "I'll talk with them."

"Akins reported that Helen Waddell was on the wire."

"I'm coming straight over," said Helen when Marcia answered. "Don't tell me I can't because I'm on my way."

So little did Marcia suspect that any force had been created by mere gossip that she was totally unprepared for Helen's news.

"Why the flashing eyes and indignant bearing?" Marcia asked. "Sure because I'm alive and well, or has that chair a pin in it?"

"To come right out with the news," said Helen, "the village has taken to its bosom the charming thought that you found out where Frank was and flew out to see him."

"And so I did," retorted Marcia. "Only I didn't see him. But you mean the gossip has been going around? Well, we might have expected that—in fact, we did expect it. We both mentioned it when we were talking at your house the other morning. How did people get on to us so soon?"

"Believe it or not, your old pal, Dorothy Osborn, grabbed the idea out of thin air and nursed it along until it became a village pet. She said she saw you leaving town and you said you were going to Schenectady."

"Oh, heavens, so I did!" said Marcia. "And I only thought I was being funny."

"—and when your name was on the list of passengers missing on the plane from Chicago, Dorothy added Schenectady to Chicago and spelled

out Frank Kendrick."

Marcia smiled ruefully. How could one explain the impulses that drove irresistibly at critical moments when only action, not thought, seemed possible? How could she satisfy the losers in the Kendrick embezzlement that she had excellent intentions in their behalf, instead of only for herself? In heaven's name, did they think she had rushed out to Chicago for her own sake, perhaps to plead for reinstatement in the defaulter's heart?

"And now that you have failed to

see him," said Helen, "they'll howl all the harder. They'll say, 'If Marcia had only let someone else know, we might have caught up with him.'... You know, no one is actually certain that you'd found out where Frank was—"

Marcia straightened. "But I'll admit I did," she said.

Helen appraised her grimly.

"As I have said before, I admire your courage and honesty. Well, as long as you are going to handle it that way, count on me to be in there fighting for you. And may heaven

reward Dorothy Osborn and all other spiteful Bobbs Neckers!"

She was silent for some moments. "Marcia," she said finally, "I feel responsible for the wild goosechase. It seems a cruel thing to have done to you, but you and I have always been open with each other. I might hurt you—probably I did—but I wouldn't know how to go about keeping secrets from you."

Marcia impulsively put her arms about her friend.

"It didn't hurt me, Helen," she said. "Not any more than I'd been hurt already. It was Frank's trouble here in Bobbs Neck that really hurt. And the trip did me some good. It made me see that I had been in love, not with Frank, but with an idea of what he was. The idea was wrong."

"This affair hasn't given me the traditional aching heart at all. And yet it's given me a problem, too. I'm not a career woman—I don't think I have a talent or an aptitude for business. I suppose marriage is the career for women like me. Perhaps I felt that, and became engaged

to Frank without asking myself enough questions.

"Well, marrying him is out, of course—and, as I said, there are no regrets on that score. But I must admit it leaves me feeling a bit unsettled. I was going to be married and the future was arranged—and the future is disarranged."

"Do you suppose I'll be an old maid?"

"Let me in on any bets," said Helen.

BAUGH, ROUTT RANKED HIGH

DICK TODD OF CROWELL
PLACED ON ALL-STAR
SOUTHWEST ELEVEN

(BY NEA SERVICE)

So many stars shine in the big Southwest Conference this year that it really is a hazardous occupation to be a picker. Any club selected, either first or second, might bring a couple of 45 second nose slugs as an aftermath. That is one reason why the league has been haywire this season.

If the Fort Worth array accomplishes this, Singing Sam Baugh, the Horned Frog ends named on the All-Southwest Conference team, will have earned their right to be on the squad.

Baugh hasn't played much in recent games, but did plenty of damage while he was on the front line. He pitched the Frogs to 18 points in 18 minutes against Baylor, 18 points in 22 minutes against Texas, and 12 points in 10 minutes against Centenary. The 145-pound Davey O'Brien carried on the rest of the way on each occasion.

Baugh was on one leg in the Texas A. and M. tilt. The Howard Payne, Texas Tech, Tulsa, and Mississippi State engagements were played in the mud.

Southwestern schools can contribute a brilliant array of talent to the east-west Shrine game in San Francisco on New Year's Day. Nearly all of the men on the first and second all-star teams, as well as other luminaries, graduate and thus will be available.

Baugh, despite being handicapped, is the Southwest's foremost candidate for All-America honors.

Joe Routt of Texas A. and M. stands out as the best guard in the conference.

Southwest aggregations continue to lean to passing. Jack Robbins of Arkansas and Dick Todd of Texas A. and M., the pick, are adept passers. Robbins tossed a large share of the 105 passes the Razorbacks used in their first three starts, and has been at it ever since. Robbins is a triple-threat man. Both he and Todd are elusive and slambang runners and good blockers.

Wolfie, Texas fullback, can smack the line and block.

Football Fortunes Change. Johnny Whitfield of Texas A. and M. and Cliff Van Sickle of Arkansas are the tackles. They are large men, capable of pulling out of the line. They rush passers and are rocks in the line when thrusts are directed at them.

Neither Routt nor Ard of Rice is of the watch-charm variety, yet each is plenty fast and figures prominently in the running attack of his varsity. They're rugged enough to hold their own in bruising attacks on their positions on defense.

At center is Reynolds of Baylor. The Bear player is a Gibraltar of the forward line. Fast, he is a great punt cover.

It is interesting to note that at this time last year, Southern Methodist and Texas Christian, the former with an undefeated and untied squad, and the latter with a team defeated only once, monopolized the Southwest All-Star team. Football fortunes change with graduation exercises.

Archer City, Nov. 21.—After taking the lead with the opening gun, the Archer City Wildcats saw Rabberry of the Crowell Wildcats wipe out their lead in the next minute of play and lead his teammates to a 20 to 12 victory in a District 10-B game here Friday afternoon.

The Archer City eleven scored early in the game on a 20-yard pass from Morrison to Fox. Fox ran 20 yards for the tally after snaring the pass.

Crowell scored within a minute, however, following a 55-yard run by Quarterback Rabberry. The Ford County eleven rallied again in the first quarter when Vecera, right halfback, went over.

BOBCATS WIN OVER OLNEY

Defeating Olney, 6 to 0, before 3,500 fans at Childress Friday night, the Bobcats of Childress High School need only a Thanksgiving victory over the Quahah Indians to take the 1936 football championship in District 2-A. J. W. Wright, a Bobcat captain early in the week, pulled the game out of the fire for Childress early in the third quarter when he intercepted a pass thrown by Quarterback Patrick of the Cubs and ran 55 yards for a touchdown. Each team registered seven first downs.

In the only other 2-A game of the night, the Graham Steers added impressiveness to their late season rally over the Electra Tigers, 19 to 7, at Graham. The battle featured a duel between Lionel Cornish of Graham and Jo-Jo Jennings of the Tigers. Two of the district's most brilliant backs, with Cornish having the edge in the performance, Electra's only touchdown came in the fourth quarter with six Steer regulars out of the line-up. Cornish scored in the second period on a pass from Ards. The second counter came on the end of an 85-yard drive in the third quarter with Cornish going across. Cornish again scored through the back field in the final quarter. Graham made Electra's touchdown after a 60-yard drive by the Tigers.

Bulldogs Win Title. After eight years, Olney and Crowell were succeeded as champions in District 10-B when the Burk Burnett Bulldogs defeated Seymour's Panthers, 33 to 7, to take the title in a game at Burk Burnett. The last quarter opened with the score tied, 7 and 7. The Bulldogs scored in the second quarter with Finch going across from the one-foot line. Seymour counted in the third on a pass, Stevens to Mikeska, for 12 yards. Spurred by the Panther touchdown, the Bulldogs broke loose in the final period and scored four touchdowns.

Wayne Smith Stars in Altus College Victory. Altus, Okla., Nov. 20.—Halfback Wayne Smith of Vernon led the Altus College Pirates to a 21-to-6 win over the Hardin-Simmons freshmen at Altus Friday afternoon. He raced 76 yards for one touchdown and 13 for another. Smith put the ball in scoring position for the other touchdown on a pass from Bufkin, putting the ball on the one-yard mark after a 29-yard gain. McKinnon of the visitors ran 78 yards for a touchdown in the last quarter. The game ended the season for the undefeated Pirates.

In addition to his long runs, Smith netted the three extra points on kicks from placement.

PADUCAH BEATS EAGLES, 6 TO 0, AT CHILLICOTHE

Chillicothe, Nov. 21.—Pushing over a single touchdown in the last quarter, the Paducah Dragons eked out a hard-earned win over the Chillicothe Eagles here Friday afternoon. The Dragons made 15 first downs to three for the Eagles but the hard-fighting Chillicothe eleven made it a close game all the way.

The home team showed surprising strength in holding the invaders scoreless until the final minutes of the game. The Dragons started their touchdown drive from their own 28. A 40-yard run by Moore and another for 19 yards by Hindman put the ball in scoring position and Boone plunged one yard for the game's lone counter. Chillicothe reached Paducah's 11 in the second quarter.

The starting lineup for Chillicothe was: Dodson, le; Jones, lt; Bradley, rg; Lance, c; Campbell, lg; Brock, rt; Duncan, re; Francis, qb; Baldrice, rh; Davis, fb.

For Paducah the starting eleven was: Isbell, le; Craig, lt; Puckett, lg; Iran, c; Fuller, rg; Cummings, rt; Mitchell, re; Hindman, qb; Gibson, lb; Boone, rh; Standridge, fb.

McLarnin Takes Ambers. New York, Nov. 21. (AP)—It appeared likely Friday Jimmy McLarnin is due to fight for the welterweight title once more. Lou Ambers, current king of the 135-pounders, went the way of most of his class Friday night. Over-matched and conceding McLarnin eight pounds, he took as decisive a beating in the Madison Square Garden ring as the former lightweight champion, Tony Canzoneri, did less than two months ago.

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ. Scientist, on Sunday, Nov. 22.

The Golden Text is: "The light of the body is the eye; if therefore thine eye be single, the whole body shall be full of light" (Matthew 6:22).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "We know that if our earthly house of this tabernacle were dissolved, we have a building of God, an house not made with hands, eternal in the heavens" (II Corinthians 5:1).

[[QUESTIONS THAT ARE ASKED ABOUT BANKING]]
"What is meant by Deposit Insurance?"
THIS term usually refers to the deposit insurance of the Federal Deposit Insurance Corporation, a Federal government agency, created by an Act of Congress in 1933 and amended in 1935.
Under this law all national bank and all state chartered bank members of the Federal Reserve System are required to be members of the F. D. I. C. Other state chartered banks may become members by conforming to F. D. I. C. standards for admission to membership. Each member bank pays to the F. D. I. C. each year an assessment at the rate of 1-1/2 of one per cent of its total deposits. These payments go into the Federal insurance fund of the Corporation and are invested in United States Government Bonds. In return for these payments every depositor in banks which are F. D. I. C. members is insured against loss for a maximum of \$5,000.
This bank is a member of the Federal Deposit Insurance Corporation.

THE TURKEY

IS THE ONLY RACE OF POULTRY THAT ORIGINATED IN THE UNITED STATES

SPANISH EXPLORERS FOUND BOTH WILD AND DOMESTICATED TURKEYS IN OLD MEXICO, IN THE EARLY PART OF THE SIXTEENTH CENTURY, AND A FEW OF THE BIRDS WERE TAKEN BACK TO SPAIN.

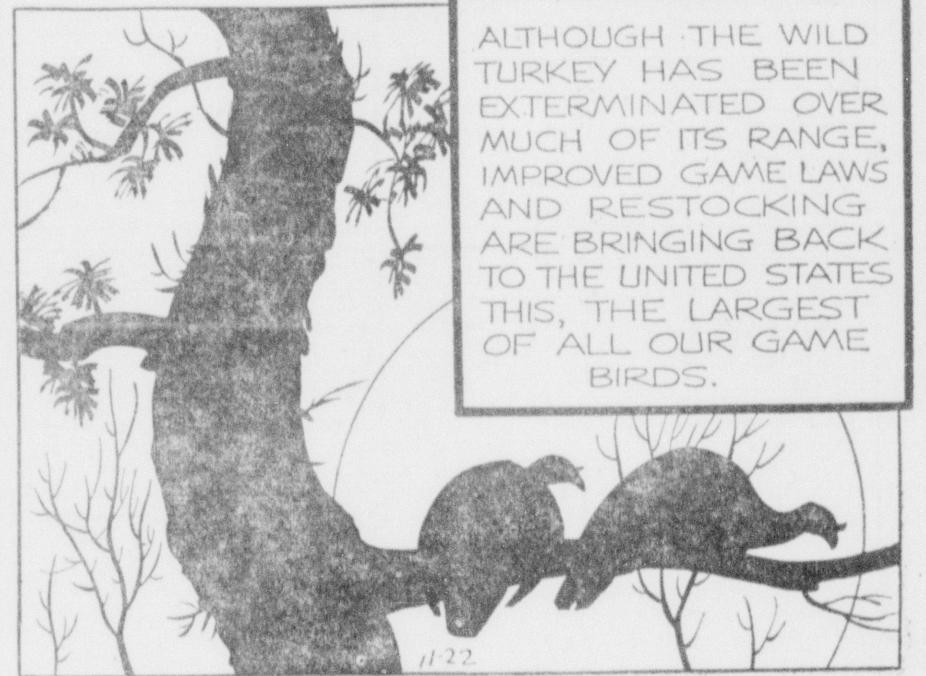

FROM SPAIN, IMPROVED BREEDS SPREAD TO ENGLAND... AND, EVENTUALLY, BACK TO AMERICA. CURIOUSLY, OUR ONLY NATIVE POULTRY RACE WAS DEVELOPED ON OTHER SHORES.

© 1936 BY NEA SERVICE, INC.

NOT ONLY IS THE TURKEY THE "NATIONAL THANKSGIVING BIRD" OF AMERICA, BUT VARIOUS OTHER COUNTRIES USE IT AS THEIR HOLIDAY MEAT ALSO.

THE NAME, "TURKEY," IS BELIEVED TO HAVE COME FROM THE BIRD'S CALL NOTES— "TURK, TURK, TURK." THE GOBBLEERS ACTUALLY BLUSH WHEN COURTING THEIR MATES.

ALTHOUGH THE WILD TURKEY HAS BEEN EXTERMINATED OVER MUCH OF ITS RANGE, IMPROVED GAME LAWS AND RESTOCKING ARE BRINGING BACK TO THE UNITED STATES THIS, THE LARGEST OF ALL OUR GAME BIRDS.
